Hanan Alfaridanhanan.alfardan@gmail.com Hanan Alfaridan is a young emira with a very big dream to reform Arabic language teaching as a foreign language. Has a master in Politics & International Management in Dubai and several years of experience in the education sector. He is co-founder and managing director of the Al Ramsa Institute for the dialect and culture of the Emirates and has designed and developed learning materials for the spoken Emirati. Hanan taught the Emiratis of different backgrounds and nationalities, aiming to enrich their life experience in the United Arab Emirates. "I want to add value to people's lives through language education," he says. Hanan believes teaching is a rewarding profession. With his love for literature, conversation and knowledge in general, it is a means to tell stories and interact with students more effectively. Working in the education sector in Dubai, he says, is particularly satisfactory. "We have a great cultural diversity and economic growth in the UAE, learning Arabic offers opportunities like anywhere else in the world." A Comprehensive Grammar offers readers a reference tool to discover and study in detail the specific dialect of Arabic spoken in the United Arab Emirates. It covers all major areas of the Arab grammar of the Emirates, describing in detail its phonological, morphological, syntactic and semantic systems. Each grammar point is illustrated with numerous examples taken from Arabic native speakers and is widely discussed by providing accessible and linguistically informed grammar description. This book is a useful reference for students of Arabian Gulf and/or modern Arabic or other Arab dialects with an interest in the dialect spoken in the United Arab Emirates, researchers interested in Arabic and Non-Arabic students and graduate scholars interested in Arab Studies. Strengthening in a book like this, for a serious language student, would lead to confusion only later. Not to mention how terrible your accent will be if you pronounce these Arabic words as they are written here! In addition, the book, like the other I read from this author, had typing errors both in English and in the Arabian Gulf. The books were produced on Arab dialects of the Gulf. ... 30 March 2019 Chazn rated it didn't like buying the audible version of this and other "fast and easy" books from this author on Audible, so he was able to return the books. I bought them after seeing a large number of five-star reviews on Audible. For a few years I have studied Arabic and other languages informally, and I was looking forward to a great anticipation. I was disappointed. First of all, the books are very short, somehow like the free introductory versions of other language books that are available for download. The author leads with several annoying chapters of waste of time that advertise his innovative "method", without actually discussing that it could actually be that method. Secondly, for Arabic, this is said for each dialect is exactly, or almost exactly, the same as Arabic books for the other dialects. There is a standard script and it is simply read. Third, nothing is said so that the differences in dialects can be understood or learned. The declarations on grammar, for example, are the same for each Arab dialect. Third, the list of words/phrases is declared a rapid fire at the beginning of substantial chapters and therefore not explored, repeated or discussed further. Much could have been forgivable if the word/phrase was made more accessible, but served in this way - it is not. Since there are a number of other sources for learning this dialect (including an excellent series of podcasts whose lessons for They are free and available for research), I must say that you should go elsewhere compared to this series. My hope is that the author comes out with the second and e II. odnacrec ovats ehs ollueq etnemattase are otseuq av otunetm omyri nu ni otas onos e ,erotide ednary nu ad are non otseuq ©Ahciop essab evitatempsa ovevA .otaijigisno iam olreva rep ecapsid im
